

CENTRE OF EXCELLENCE
A TRUE K-BEAUTY EXPERIENCE

Our World-Class Arsenal Of Beauty Technology

AI 3D SKIN ANALYZER

India's First AI 3D Skin Analyzer,
A Revolutionary Leap In Dermatology Backed By
World's Leading Korean Aesthetic Technology. The Isemeco 3D
D9 Is A Premium 3D Imaging + Ai Prediction + Surgical-Grade
Mapping System, Engineered To Examine Multiple Layers Of The
Skin With Exceptional Precision - Providing High-Definition
Visualization Of Both Surface And Subsurface Structures, And
Also Delivers Skin Future Simulation

Trusted From Top-Tier Clinics Across Seoul, Singapore, And
Dubai, The D9 Represents The Gold Standard In Modern Skin
Evaluation.

K-Excellence SKIN ANALYZER

The K - Excellence Skin Analyzer—A World-Class Diagnostic Innovation Engineered In Korea. The Multispectral Imaging Device Was Created To Master The Fine Nuances Of Texture Refinement, Pore Minimization, And Long-Term Barrier Strength. Brings Scientific Depth, Predictive Insights, And Ultra-Detailed Imaging, Enabling The Accurate Pursuit Of Patients To Achieve “Glass Skin” With Precision.

Trusted Across Profound Korean Aesthetic Centers, This System Is Known For Its Precise Quantification Of The Parameters That Define Flawless, Poreless, Radiant Skin.

OLIGO CHECK – AI POWERED NUTRITIONAL DIAGNOSTICS

We Introduce The Oligo Check – A Groundbreaking European Bio-Scanner Designed To Reveal Your Skin's Healing Ability, Glow, Collagen Production, And Overall Aesthetic Results By Evaluating Internal Nutrient Levels, Antioxidant Capacity, And Toxin Load For Comprehensive Metabolic And Skin-Health Assessment.

This Advanced System Bridges The World Of Aesthetic Dermatology And Internal Wellness, Offering Insights Far Deeper Than Surface-Level Diagnostics

DERMOSCAN

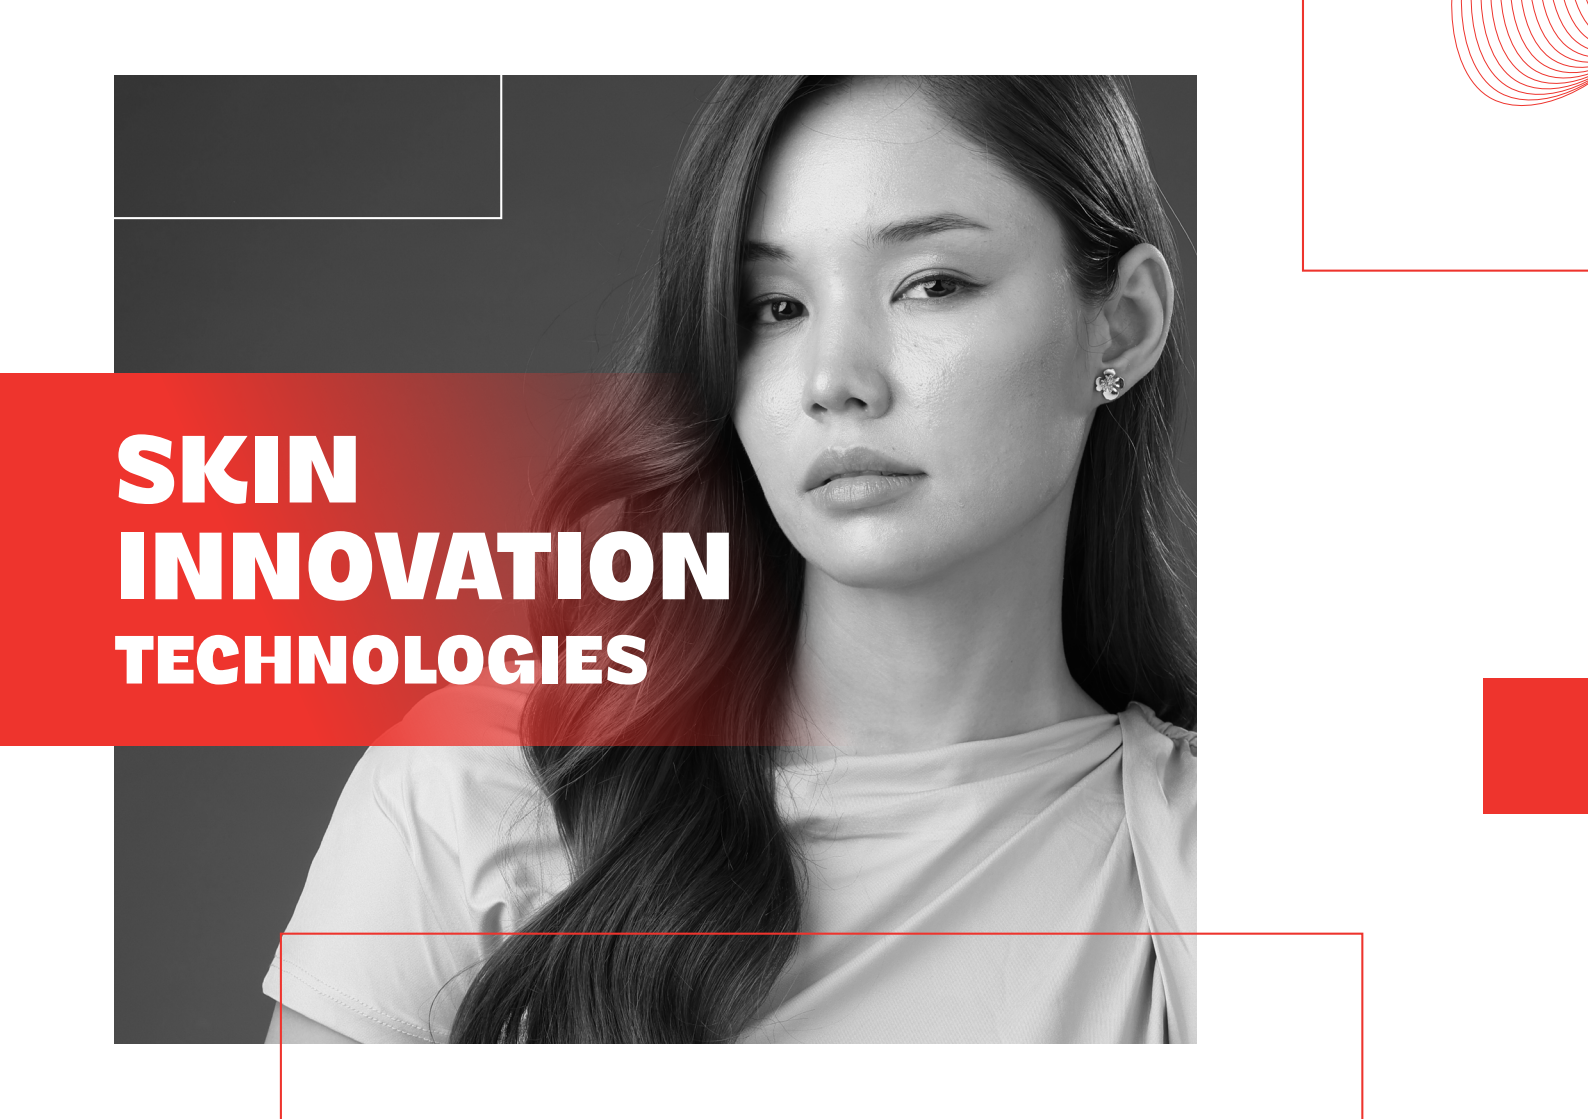

DSM-4 COLORIMETER TECHNOLOGY

We Bring You The Dermoscan DSM - 4, Powered A German-Engineered, NASA-Grade Spectrophotometric System And Validated Skin Measurement System Used In Global Clinical Trials

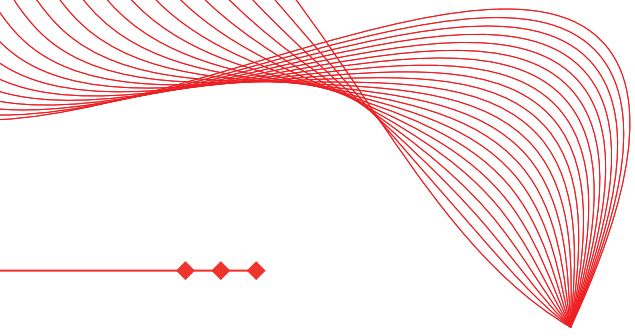

Known As The Safety Guardian In Aesthetic Dermatology, This Device Ensures Every Laser Treatment, Every Skin Intervention, And Every Progress Assessment Is Backed By Irrefutable, Lab-Level Scientific Data

A Gold-Standard Device That Delivers Precise Skin Measurements For Scientifically Guided Aesthetic Treatments

SKIN INNOVATION TECHNOLOGIES

The Alma Harmony XL PRO

A Beacon Of Innovation, This System Provides Unparalleled Precision In Fractional Resurfacing. It Meticulously Erases Textural Imperfections, Acne Scars, And Enlarged Pores, Creating A Flawlessly Refined Canvas Worthy Of **The K-Beauty Standard**

Triton Platform By InMode

Renowned For Its Powerful And Controllable Energy Based Solutions, Inmode Delivers Exceptional Subdermal Remodeling And Contouring. It Allows Us To Precisely Target And Redefine Areas Like The Jawline With Groundbreaking Accuracy And Safety

The Density RF by Jeisys

Directly From The Heart Of Aesthetic Innovation, This State Of The Art Radiofrequency Device Is A Cornerstone Of Our 3D Approach. Its Deep, Uniform Heating Technology Is Engineered To Trigger A Powerful Collagen Renaissance, Resulting In Significant Skin Tightening And Firming For A Visibly Lifted Contour.

The Hollywood Spectra By Lutronics

The Icon Of Red-Carpet Perfection. This Premier Q-Switched Laser Platform Is The Industry Benchmark For Erasing Pigmentation, Sun Spots, And Vascular Lesions. It Delivers The Flawless, Uniform Skin Toning And Brightening That Defines Celebrity-Ready Skin

The Ultracel Q + By Jeisys

Bringing The Gold-Standard In Non Surgical Lifting Directly From The Source Of K-Beauty Innovation. This High Intensity Focused Ultrasound Device Delivers Energy To The Foundational Structural Layers, Providing A Lifting Effect For The Cheeks, Jawline, And Delicate Under-Eye Area

The Enerjet By PerfAction

A Revolutionary Leap In Needle Free Technology. Enerjet Uses High-Pressure Oxygen To Infuse Potent Bio Actives Like Hyaluronic Acid And Collagen-Stimulators Deep Into The Skin, Achieving A Level Of Hydration And Revitalization Previously Impossible Without Injections

The AviClear By Cutera

Pioneering Acne Clearance, Engineered To Treat Breakouts At Their Source, And Now In India For The First Time. This FDA-Cleared 1726 nm Laser Selectively Targets The Sebaceous Glands Behind Excess Oil And Recurring Breakouts, Delivering Clearer, Calmer Skin Without Harm To The Surrounding Tissue, And Offering A Medication-Free Path To Lasting Clarity.
