

The Revolution

7 Lasers. 3 Dimensions in *One Day*.

India's First *Single-Day*
Architectural *Facial Rejuvenation*

For too long, the pursuit of flawless skin and sculpted facial harmony meant a fragmented journey. one appointment for pores, another for pigmentation, and yet another for lifting, with calendars filled with waiting and downtime

At VCare COE, we Chose to Ask a different question.

What if every dimension of beauty could be perfected in a single day?

That question led to ***The Formula 7L + 3D = KB™*** -

the world's most advanced ***10-dimensional aesthetic protocol, inspired by the precision of Korean aesthetic science.***

Through one clinically sequenced, high-precision session, it delivers:

Surface Refinement. Structural Remodeling. Aesthetic Enhancement.

The artistry of global aesthetics is no longer distant. It's now within reach.

✦ Glass Skin Clarity

✦ Sculpted Facial Contour

✦ Youthful, Lifted Definition

Only at VCare Centre of Excellence.

A sophisticated
K-Beauty experience -
exclusively at *VCare Centre of Excellence.*

WHAT'S INSIDE THE FORMULA 7L + 3D = KB™

Seven Light Sciences for a Visibly Perfect Skin Surface

The seven advanced light-based systems are carefully sequenced to refine every visible detail of your skin with advanced precision. Each stage targets a specific concern:

Deep Pore Purification

Smooths and decongests the skin surface by clearing trapped impurities and refining texture.

Pigmentation Correction

Targets dark spots and uneven tone for a visibly brighter and more uniform complexion.

Redness & Vascular Balance

Calms visible redness and broken vessels, restoring a balanced and even skin tone.

Active Acne Control

Reduces inflammation, prevents future breakouts, and promotes clearer, healthier skin

Scar & Texture Refinement

Softens scarred or uneven areas for a smoother, more polished skin surface.

Fine Line Reduction

Boosts surface-level collagen activity to minimise early lines and maintain youthful softness.

Radiance Enhancement

Eliminates dullness, reviving a fresh, luminous glow from within.

This multi-layered approach creates a *cleaner, clearer, more radiant skin* canvas - the hallmark of *K-Beauty surface excellence.* ✨

3D Facial Contouring for Enhanced Facial Definition & a Natural Lift

A comprehensive 3-step system works together to lift, contour, and restore facial firmness for a naturally refined appearance.

Subdermal Contouring

Reduces facial heaviness and refine jawline definition for a sleeker, more sculpted lower face.

Collagen Remodeling

Boosts collagen strength to improve skin firmness, elasticity, and youthful structure.

Redness & Vascular Balance

Delivers foundational support layers to elevate sagging areas and create a naturally lifted silhouette without surgery

Together, they elevate the face to a *firmer, more refined, and youthful harmony* — inspired by *K-Beauty standards.* ✦

VCARE COE BEAUTY PROTOCOLS

The Single-Day Architectural Facial Enhancement program

1

Consultation & Digital Skin Mapping

A detailed assessment of your skin to determine the right treatment

2

7L Surface Refinement

Laser-based procedures to improve clarity, texture, pores, scars, and overall brightness

3

Short Break

Numbing and relaxation before the next phase.

4

3D Structural Improvement

Energy-based technologies to improve firmness, support, and facial definition.

5

Hydration & Glow Boost

Bio-active infusion to restore moisture and boost radiance.

6

Results Review & Guidance

Post-care support and expectations explained for the 90-day improvement phase.

A smooth and guided experience — completed in 3.5 to 4 hours

The Customised Treatment Pathway

1

Consultation

Understand your concerns. Define your goals.

2

Personalised Skin Plan

A clear roadmap curated just for you with targeted technologies and a phased approach for lasting results.

3

Targeted Treatment Sessions

Your customised plan is executed through advanced treatments that correct concerns and elevate skin quality.

4

Visible, Measurable Progress

Watch your transformation unfold with noticeable improvements that continue to evolve.

*While the Single-Day Protocol delivers a complete transformation in one session, **Customized Treatment Plans** selectively address only the concerns that matter most to you*

THE GLOBAL BEAUTY TECHNOLOGY SUITE AT VCARE COE

In India, VCare COE brings this global beauty arsenal under one roof

Alma Harmony XL Pro

A next-gen fractional system that resurfaces skin with precision light energy for *smoother, refined clarity.*

Triton Platform-InMode

A global leader in radiofrequency and contouring technologies that *sculpt, tighten, and define facial architecture.*

Density RF By Jetsys

A high-intensity RF platform that delivers deep collagen *remodeling for firm, lifted, age-reversing skin.*

Hollywood Spectra By Lutronics

A laser powerhouse that clears pigment, brightens tone, and boosts radiance with zero downtime.

Ultracel Q+ By Jeisys

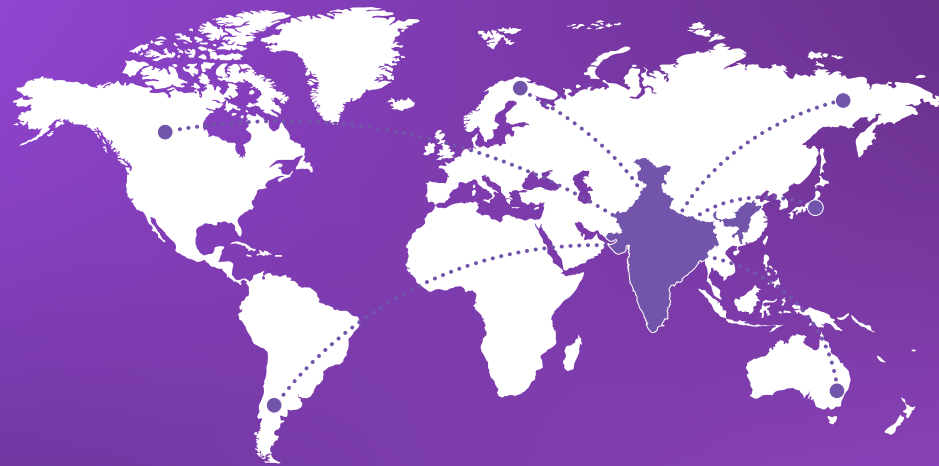

A high-speed HIFU system that lifts and tightens skin at the SMAS layer for instant visible definition.

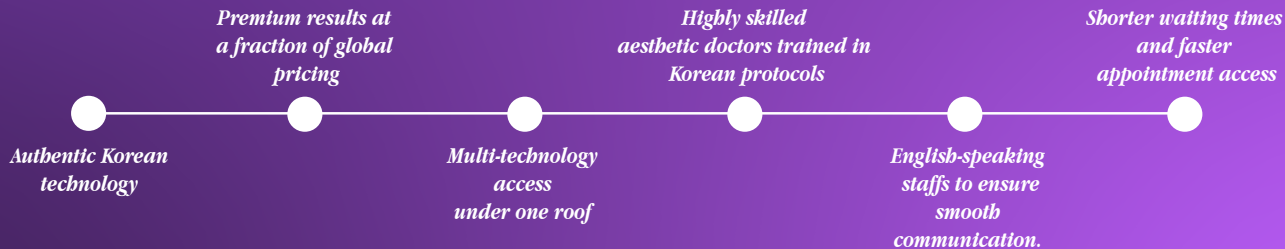

EnerJet By PrefAction

A needle-free jet technology that boosts hydration, elasticity, and skin rejuvenation through high-pressure energy delivery.
